VOLUNTARY ANNOUNCEMENT

BUSINESS UPDATE

DEVELOPMENT IN INTELLIGENT ROBOTICS BUSINESS

This is a voluntary announcement made by Future World Financial Holdings Limited (the “**Company**”), together with its subsidiaries (the “**Group**”) to keep the shareholders and potential investors of the Company informed of the latest business development of the Group.

The board of directors of the Company (the “**Board**”) is pleased to announce that the Group intends to take initiatives in developing business in relation to intelligent robotics and related services.

A robot is an automatic equipment that integrates advanced mechanics, electronics, control, sensing and artificial intelligence technologies. Since the birth of the robotics industry in 1956 and after nearly 60 years of development, robots have been widely used in equipment manufacturing, new materials, biomedical and new energy industries. The integration of robotics and artificial intelligence, advanced manufacturing and mobile internet technologies has transformed the human social production and lifestyle. Benefit from its own rapid economic development, China has been the world’s largest industrial robot market for five consecutive years. In China, there is a huge potential demand for service robots which speeding up the domestic production of core components and the emerging of innovative enterprises. Many countries have already recognised the economic values and implemented proactive

policies in supporting the development of robotics industry. As such, the Group has recently entered into several trading agreements in relation to the sales and purchase of robots and related products. The Group will also identify suitable partners to acquire well-established and/or potential start-up companies in the sectors of robotics, artificial intelligence, entertainment technology and new energy transportation, as well as invest in any other business opportunities. The Group will take advantage of China's Belt and Road Initiative and global trading opportunities to develop its intelligent robotics business in the Greater China region and overseas. The Group also plans to introduce and establish high-tech artificial intelligence and robotics investments in the Greater Bay Area, other provinces in China and overseas, and becomes an industry-leading listed company in Hong Kong.

The Board considers that the development in the intelligent robotics business will contribute positively to the revenue and profit of the Group and will be beneficial to the Group, thereby creating values to the Company and its shareholders. The Group will continue to proactively identify the suitable development or investment opportunities to strengthen the business portfolio of the Group and generate sustainable and steady financial performance in the long run.

Further announcement(s) in respect of the development of the aforesaid business will be published in accordance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited as and when appropriate.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
Future World Financial Holdings Limited
Wang Fei
Chairman

Hong Kong, 31 May 2019
